CYPHERS CHICK FOOD A Complete, Scientifically Compound Food for Young Chicks

This food is just what all young Chickens should have It is easy for the Chickens to digest and when it is used there is practically no bowel trouble. No so-called white diarrhoea. There is no food that equals it in promoting growth. Chicks grow more rapidly than if fed on any other food. This statement is in accord with the experience of all our customers that have used it the last two seasons. The reason Cyphers Chick Food gives such extraordinary results is that it is a mixture of many different grains and seeds so proportioned to the needs of the growing chicks that it is fully nourished. By the term "fully nourished" we mean a great deal. Most feeding stuffs contain too much waste in form of fiber and not enough flesh and Feather forming elements; in consequence the chick develops indigestion and diarrhoea, lingers a few days, then dies. No one grain contains all the elements necessary for the greatest growth in chicks. Cyphers Chick Food is made from many kinds of healthful seed, mixed together in such proportion that it furnishes just what the young chick needs. This feed is just the thing for young chicks if hatched in Incubator or by hen. Price \$2.50 per hundred

We also carry in stock,

Cyphers Developing Food for hastening the growth of young chickens.

Cyphers Forcing Food and mashed food specially designed to rapid formation of flesh and fat.

Cyphers Scratching Food an ideal dry grain mixture

affords variety, promotes exercise.

Cyphers High Protein Beef Scrap the standard meat food to be fed to young or old chickens, Oyster Shells, Grit, and the Court of Oyer and Terminer in ne-

NEW YORK FASHIONS

For the past few weeks New York has Measures
Dover, Del., March 31st.—The importFashion" though this is the season of completed yesterday by Governor Preston
Lea, who appointed as the members-atlarge of that commission from the citizenbody of the state:

Very Light Colors

White or very light colored ground with colored stripes, as well as checks of similar style, are among the most notable tenant-Governor and banker and showings of the season. Wonderfully afacturer. manufacturer.

The Governor also appointed Robert A. the same suit, stripes running lengthwise across, and biased at different angles Davie to be a notary public.

The complete board comprises, in addition to the Governor's appointees, Senators George W. Sparks, David C. Rose and Military Comprises of the Comprise of the C

In the hands of a skillful tailor appar ent slenderness is produced in figures that without help of seme sort would be chtoo heavy to be ranked in this class. Trimness of Line Essential

The present modes demand great neat-ness and trimness of line, hence the fit of the corset and underwear becomes a matter of even more than usual importance. Every woman with a well developed figure should wear some form of support above the upper line of the corset many devices have been made for this purpose. Through the courtesy of Arthur Frankenstein & Co. we are able to illustrate a new garment of this sort known as the "Corslette" which is especially to be

Made of fine batiste, trimmed with lace ould be obliged to go about looking man's thoughts.

New Shirt Waists

With practical suits the extra waist is ach to the fore as ever. Shirt waists of a washable sort, made of lines and fine cottons have very full, much pleated fronts, and close down the centre Creating a Revenue and Taxation Com-seion and for an appropriation to pay row plaited ruffles. Embroidered turn over collars are the most fahionable neck-wear with these, and little butterfly bows Board of Trustees of the Delaware State are used more than any other form of necktie.

He Now Needs to be an All-Around

one has said that "what is reall ister successfully to the same flock for a decade or two, is that he should be an orator, a literary man, a saint, and a As to that, in my childhood I knew an old pastor who for sixty years had ministered successfully to the same flock. long. He was a scholar, but not an ora or; a good man, but not what could be called a man of the world. I remember that after his fiftieth anniversary it was thought best to lighten his labors by giving him a "colleague." The selection was difficult, but the minister and him eacons wished to be perfectly fair and would not judge too hastily.

The candidate was engaged for a cer tain term and given a chance to preach not one, but many sermons. Hard was he lot of the first young candidate. had a flowery style and, to tell the truth, not much else. The congregation, used to solid, scholarly discourses, was critical was somewhat deaf, and instead of renaining in the background of the pulpit, sed to draw up a chair and sit at the hear. At critical moments he would rise more severely attentive with each ornate And this in, the face of fifty school girls, who sat with demure faces but with laughter in their eyes! The young man was allowed to carry his roundings, and I cannot believe that he

As a matter of fact, people are really To be sure, they are not obliged listen to them, but may accept them as a rhythmical background for a personal demand that the sermon shall be duly written and delivered and are not inclined to accept any substitute in the shape of a and ribbon, with flexible boning and a better preacher's better sermon read to back of elastic webbing, this little holder them from the pulpit. There is, rightly fits any figure and insures the lines that or wrongly, a traditional feeling that the ential to the proper fit of the outer word which a man speaks to you is a apparel, whether it be a dressy costume more living word if it is really his own or a simple shirt waist. As this launders and not another's; and it seems to take well, and can be had at small cost at all the special gift of the actor to form a up-to-date corset departments, no woman | magnetic current by means of anothe

POULTRY NOTES

was a remonstrance against him. After hearing a great deal of evidence in the matter the court refused a license to Mr. OUR WATER SUPPLY The condition of affairs that McIntyre, and since that time the hotel has been closed. When Mr. Maxwell, prevailed in this town on last who for many years conducted the Nat-ional Hotel made his application for Saturday and Sunday were serious. For many hours the town a license for the hotel formerly run by Mr. McIntyre, some of the citizens of was absolutely without water supply. Both pumps were Middletown immediately got up a remonbroken down, and had a fire oc- strance against him. The case came up curred during these hours, there would have been no effective morning. Attorneys Higgins and Pricket would have been no effective means of fighting it. That it did represented the remonstrants and Atterneys Biggs and Rodney appeared for not is lucky. Such a condition is the applicant. Ou behalf of the remon-possible at any time; in fact, it strants, J. R. Hoffecker, G. E. Hukill, has happened before. We are Magistrate Alford G. Cox and several not advised as to whether under other citizens of Middletown, and Chief the present system, it would be Black, of Wilmington, gave testimony the present system, it would be possible to guard against its recurrence. If so, every means united in alleging that the latter had run should be used to do so. If not, a card game at his farm, and had done some other or additional system should be adopted that the town than called, all of whom testified that shall not be subject to this dan-Mr. Maxwell was a good citizen and enger, and the users of the water titled to license. A petition was also who pay for its continual use presented to the court by his attorneys Clellan. signed by many property owners of Midshall not be subject to the annoydletown. ance and expense of procuring water for use from other sources.

Just what the new additional system should be, is a question to be given the most serious attention by our Light and Water Commission. Two plans have been suggested, neither of which would cost a great amount of money. The first is to run a pipe line down to Silver Lake, and attach through the large pump now installed, into the Mr. Harry Budd and wife. mains to be used only in emergency and at fires. This would give an ample supply of water at all times, but would be subject to the objection that the water is not as good for drinking purposes as our present supply. But it would put out fire just as Milka Lusby on Sunday. effectively as does the deep well water, and in an emergency could be used for many of the household purposes, thus requiring the users of water to carry only their drinking water. The installation of a small filter plant in connection with this system would obviate all trouble. The second plan suggests the building of a small reservoir with a capacity of 100,000 or 150,000 gallons on the present lot, to be filled from the deep wells, and then in an emergency to be pumped with direct pressure into the mains. The objection to this plan is the constant expense of pumping the water from such a depth, and the occasional expense of cleaning and the maintenance of the plant. Either or both plans are feasible and neither should be very expensive. At all events something is needed to guard against possible serious disaster.

Why Buy McClure's?

McClure's Magazine is bought and read in homes not because it is a magazine but because it is the magazine. Why?

FIRST—THE PRICE. It costs but one dollar a year, or less than ten cents a number, for over thirteen hundred two-column pages of reading matter. This amounts in actual bulk to twenty or twenty-five books costing anywhere from a dollar to two dollars a volume.

SECOND—QUALITY. The reading matter is written by America's leading writers—the best short story writers, the best writers on timely articles, the best writers of important serials, such as Schur's Reminiscences or Baker's Railroad articles. THIRD—TIMELINESS. The reading matter in McClure's is not only good; it it is not only entertaining, amusing, instructive and inspiring—it is also about the subjects in which you and all Americans are most interested at the time. No subjects in the next twelve months are going to be so important as the question of railroad rates and rebates and the question of life insurance. Both of these questions will be discussed by authorities in an-impartial, careful, interesting way.

FOURTH—ITS CHARACTER. McClure's Magazine is not edited for children but at the same time, there is never a line in it that any young girl might not read advertising pages are as clean as its editorial pages.

McClure's Magazine

in your home is intended to work only for good. Send \$1.00 to-day for one year subscription, or leave an order at your book-store. November and December from the new subscriptions for 1906.

S. S. McCLURE COMPANY, 47 East 23 Street, NEW YORK ou.can earn a good income by taking up the business of securing a cClure's. It is clean and self-respecting—a publication any man take the represent. The pay is 25 cents for each \$1.00 subscription, is shiprizes for the best work. Write to day for full particulars. April Showers
